### **Examiner's Amendment**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

(1) On page 8 of the specification, paragraph [0041], line 5, "12" has been deleted.

(2) In claim 21, line 2, "the" has been changed to --the--.

(3) Claim 22 has been canceled.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Richard Getz on October 25, 2004.

### **Drawings Change**

The following changes to the drawings have been approved by the examiner and agreed upon by applicant's attorney Mr. Richard Getz:

In Fig.7A, reference numeral "46" (the one above "54") has been deleted.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

### **Reasons for Allowance**

The following is an examiner's statement of reasons for allowance:

(1) Claims 1 and 11 contain allowable subject matter because none of the prior art of record taken alone or in combination thereof shows or fairly suggests a wick substantially covering a reservoir of a shaving apparatus within which a storage medium for storing a non-solid shaving aid material is disposed.

(2) Claim 12 contains allowable subject matter because the claimed replacement cartridge being attached to the handle in such a manner that the self-leveling mechanism of the handle is not operative to adjust the movement of a first element relative to a second element of the handle is not shown or made obvious by the prior art of record or any combination thereof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Prior Art Citations**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

(1) Miller is cited to show a razor having a wick 26 served as a reservoir for lubricant.

(2) Althaus et al. show a shaving device comprising a wick 12 disposed within a reservoir 8 and covered with an adhesive film 32 to prevent the artificial evaporation of the liquid shaving preparation on the wick 12.

(3) Oldroyd shows a razor having a reservoir chamber 4 for storing shaving aid material and pockets 10 for dispensing the shaving aid material.

(4) Pennella and Coffin et al. each shows a shaving apparatus comprising a shaving aid.

(5) Oldroyd shows a razor with a movable cartridge.

(6) Pennella et al. show a razor assembly comprising a razor cartridge, a shaving aid body, a handle, and a linkage pivotally connected to the handle. The linkage is connected to the razor cartridge and the shaving aid body in a manner such that the razor cartridge and the shaving aid body are moveable relative to the handle. Movement of one of the razor cartridge or the shaving aid body in a first direction causes the other of the razor cartridge or the shaving aid body to move in a second direction substantially opposite the first direction.
